To whom it may concern

KTH Holding AB is the holding company for KTH Royal Institute of Technology in Stockholm, Sweden. It is a public company administered by the KTH university board since 2006 and collaborates closely with the KTH technology transfer office KTH Innovation. The holding company invests in early, promising startups stemming from research and education at KTH with the aim of promoting commercialisation and enable new science to create impact in society.

KTH Holding and KTH Innovation are currently evaluating the commercial potential of a **nuclear radiation detection technology** that has been developed by researchers at KTH.

Within the scope of this evaluation we have contracted the company “**Juniasia Business Solutions Pte Ltd**”, a consultancy company incorporated in the Republic of Singapore with Company Registration No: 200722982G, to perform a market validation study on our behalf.

This assignment is estimated to be carried out between February and May 2018.

By collaborating with Juniasia Business Solutions Pte Ltd on this issue you are effectively aiding us in our efforts to take important KTH research to the market and create value and impact for a better and safer world.

If you have any questions about the connection between Juniasia Business Solutions Pte Ltd and KTH, please contact Gustav Notander (Notander@kth.se) at KTH Innovation who is the Technology Transfer Manager in charge of this project.

Thank you very much for your cooperation and support.

Yours faithfully

Lisa Ericsson
CEO KTH Holding AB
